SOFTWARE EXPERIENCE

Front End Development (06/2019 - Present)
- I've been working on front-end applications for more than a year now and during this period, I've managed to build various projects using modern web technologies. I used vanilla javascript to learn the advanced techniques and then I dived into the frameworks & libraries like Angular and ReactJS.

Mobile App Development (08/2020 - Present)
- Currently, I'm learning React Native to build interactive mobile applications for both IOS and Android.

Data Analytics (10/2019 - Present)
- I'm able to create, design, and modify databases using MySQL DBMS. Furthermore, I have experience with Python for data science. For data visualization, I used to work with Tableau.
